Sujan Pokhrel

UX/UI Designer & Front-End Developer
Vancouver, BC | sujanpokhrel101@gmail.com | +1 778-522-2057 | LinkedIn | GitHub

Technical Skills and Knowledge

- **UX/UI Design:** Figma (wireframing, interactive high-fidelity prototyping), paper and low-fidelity prototyping, interaction design, iOS design patterns, user flows
- **Research & Accessibility:** Heuristic evaluation (Nielsen's 10 heuristics, severity rating), WCAG 2.2 contrast and accessibility standards, competitive analysis
- **Front-End & Data:** HTML, CSS, JavaScript, Bootstrap, responsive web design, SVG data visualization, Git and GitHub Pages
- **Visual, Brand & Content:** Typography, grid systems and Swiss Style, social media branding, content strategy, brand voice and messaging pillars, community management
- **Media & AI Tools:** MidJourney, Runway, Kling AI, ElevenLabs, DaVinci Resolve, CapCut, Google Slides

Projects

Adaptive Legibility for iOS 26 — Accessibility Concept & Figma Prototype 2026

- Designed a concept iOS feature that adapts Liquid Glass blur, opacity and tint to the wallpaper and ambient light, raising text contrast from 2.0:1 to the WCAG AA standard of 4.5:1 while keeping the visual style
- Benchmarked three existing iOS options (2.0:1, 3.7:1 and 4.2:1) and built a 26-screen interactive Figma prototype covering the problem, solution, settings and live scenarios

Amazon Checkout: A Heuristic Evaluation — UX Research Case Study Spring 2026

- Audited four screens of Amazon.ca's live checkout against Nielsen's 10 heuristics, identifying 8 usability issues rated on a 0–4 severity scale (1 major, 6 minor, 1 cosmetic)
- Proposed 3 redesign recommendations with before/after mockups, including showing the true shipping cost in the cart and a visible cancel option after purchase

Live Blood — Blood Donation Website (HTML, CSS, JavaScript) Nov. 2025 - Dec. 2025

- Took the site from paper sketches to low- and high-fidelity Figma prototypes to a responsive, accessible website that helps students find donation camps and register
- Built a camp search by city or postal code, a step-by-step eligibility checklist and a validated registration form, applying class and peer feedback

Dior: Content Strategy & Brand Voice — Team Project (4 members) 2026

- Analyzed Dior's content across 8 platforms and mapped how each piece informs, engages, inspires or converts
- Defined 3 brand voice traits and 5 messaging pillars, wrote platform-specific copy for LinkedIn, TikTok and campaign film, and drafted on-brand replies to real customer posts

Wellness Flower — Personal Data Visualization (JavaScript, SVG) Oct. 2025 - Nov. 2025

- Tracked 30 days of my own screen time, sleep, stress and productivity and encoded them in a radial chart, revealing that stress rises and sleep falls past about eight hours of daily screen time

Education

Master of Professional Studies - Digital Media Sep. 2025 - Jul. 2027 (expected)
Northeastern University, Vancouver, British Columbia

- Relevant coursework: UX/UI design, creative coding, data visualization, digital storytelling, brand and content strategy

Bachelor of Computer Application (BCA) 2018 - 2024
Crimson College of Technology, Pokhara University, Nepal

Certifications

HTML, CSS & Bootstrap
